Assignment no. 1
Course: Cloud Computing and DevOps
Instructor: Bilal Aurangzeb – bilal.aurangzeb@comsats.edu.pk

Student Name: Syed Junaid Ahmed
Student Roll: *SP18-BCS-155*

This assignment requires you to sign up for a free personal account on GitHub. Once you're signed up, your free account would give you to unlimited public and private repositories and the ability to collaborate privately with up to 3 users.

Must-Haves:
1. Personal GitHub account – with proper username (e.g. fname_lname, etc.)
2. Upload any of your past project and or current work – **Remember if it's your FYP, keep it in a private repository.**
3. Create a profile-level Readme to display your GitHub profile
4. Install Git in your PCs/Macs and commit a single change to your repository. (It can be any change like adding a comment within code, or changing variable/class's name, etc.)
5. Share your GitHub Profile Links and paste Screenshots of your working in the following pages of this document and submit back. Submission link will be shared with you all over on Teams.
